

Smoke Outlook

Southern New Mexico Black Fire

5/28 - 5/29

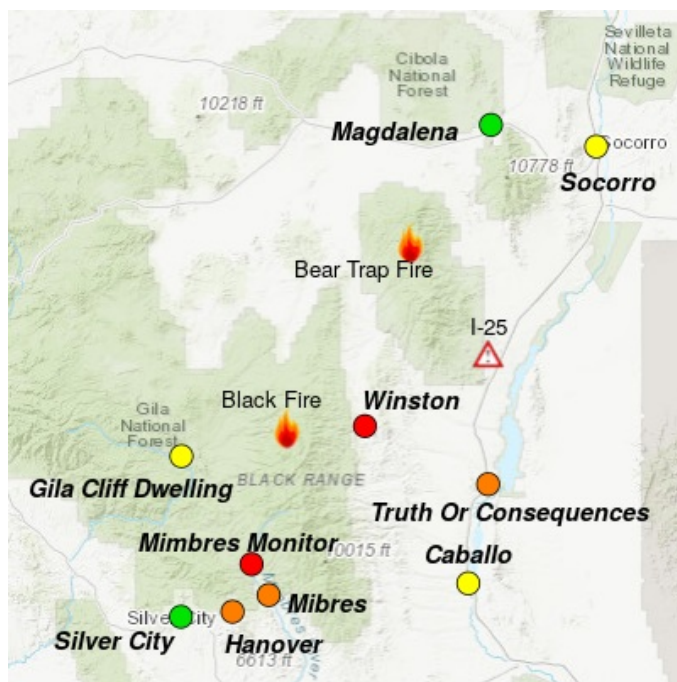

Issued by Wildland Fire Air Quality Response Program on May 28, 2022 at 07:09 AM MDT

Fire

The Black Fire is at approximately 212,118 acres with 18% containment. *WIDESPREAD CRITICAL FIRE WEATHER CONDITIONS TO RETURN THIS HOLIDAY WEEKEND*

Smoke

Magdalena will see good air quality in the area most of the day with west southwest winds pushing smoke to the northeast. Socorro will see periods of moderate to USG (unhealthy for sensitive groups) at periods with west southwest winds pushing smoke northeast. Winston & Chloride will start the day with unhealthy air quality clearing as winds pick up around 1000. Gila Cliff Dwellings will see good air quality this morning with periods of moderate smoke backing into areas when the winds change out of the northwest to west-southwest. Mimbres, Hanover, and San Lorenzo along the Mimbres River drainage will continue to have heavy smoke in the evening hours into the morning clearing in the afternoon with high winds in the area from the southwest. Truth or Consequences and Caballo will have moderate air quality with possible periods of USG.
