

# Smoke Outlook

## Southern New Mexico Black Fire

5/29 - 5/30

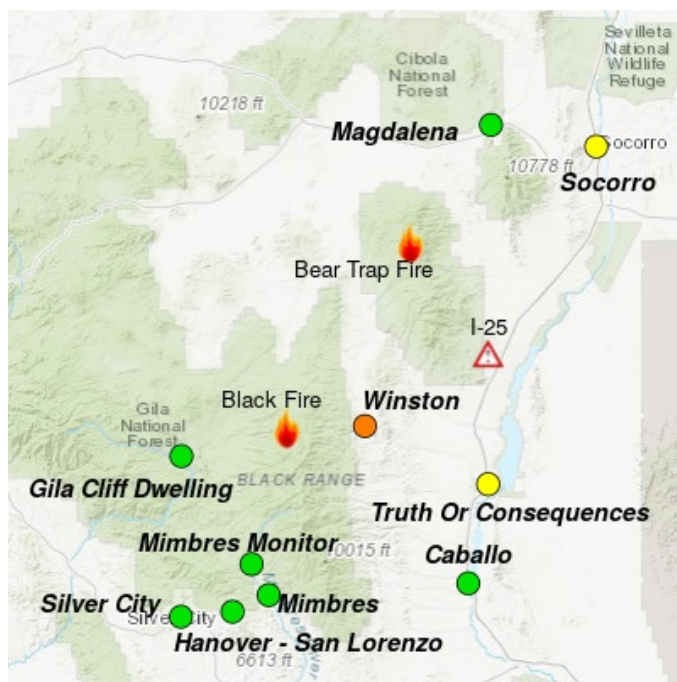

Issued by [Wildland Fire Air Quality Response Program](#) on May 29, 2022 at 07:12 AM MDT

### Fire

The Black Fire is at approximately 228,311 acres with 19% containment. \*WIDESPREAD CRITICAL FIRE WEATHER CONDITIONS TODAY\*

### Smoke

Magdalena will continue to see good air quality in the area most of the day with west southwest winds pushing smoke to the northeast. Socorro will see periods of moderate to USG (unhealthy for sensitive groups) at periods with west southwest winds pushing smoke northeast. Winston & Chloride will start the day with USG (unhealthy for sensitive groups) air quality clearing as winds pick up around 1200. Gila Cliff Dwellings will see good air quality this morning with periods of moderate smoke backing into areas when the winds change out of the northwest to west-southwest. Mimbres, Hanover, and San Lorenzo along the Mimbres River drainage will see Good Air Quality with high winds in the area from the southwest clearing out the drainages and low-lying areas. Truth or Consequences and Caballo will have moderate air quality with possible periods of USG. Blowing dust and debris will also reduce air quality and visibility today.
