

Smoke Outlook

Southern New Mexico Black Fire

6/01 - 6/02

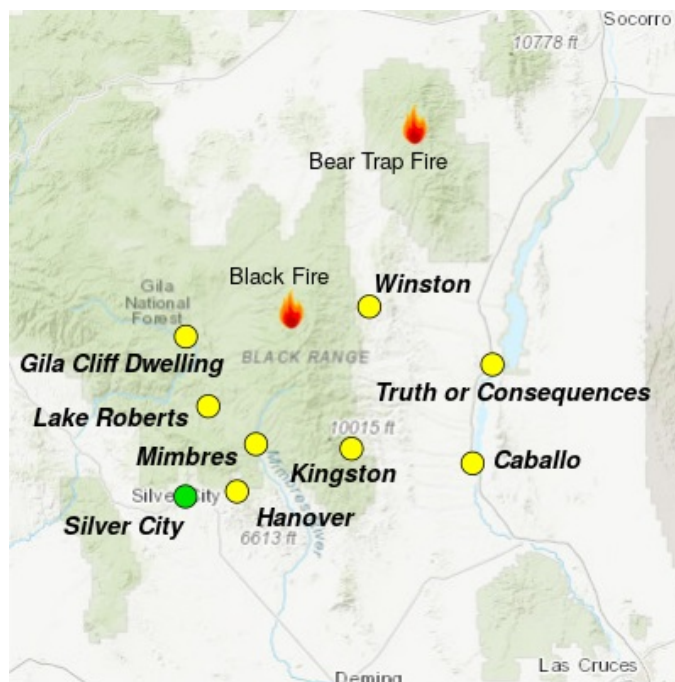

Issued by [Wildland Fire Air Quality Response Program](#) on June 01, 2022 at 07:11 AM MDT

Fire

The Black Fire is at approximately 254,840 acres with 25% containment.

Smoke

North-northeast winds will push smoke into the areas early am clearing late in the afternoon. Winston & Chloride with periods of moderate to USG (unhealthy for sensitive groups) air quality. Haze visible in the area as winds decrease and smoke is slow to disperse. Gila Cliff Dwellings will see good air quality switching to moderate midday. Mimbres, Hanover, and San Lorenzo along the Mimbres River drainage will see moderate air quality with NE winds. Lake Roberts area will see moderate to USG (unhealthy sensitive groups) air quality today. Kingston and Hillsboro will see moderate air quality in the area with haze lingering. Caballo will have moderate air quality much of the day with haze visible in the area drainages. Truth or Consequences will have moderate air quality with possible periods of USG. Haze in the area continues from Socorro south along the Rio Grande due to reduced winds. The outlook area will see moderate air quality with haze due to light winds.
