

SMOKE OUTLOOK

S-W New Mexico – Hummingbird

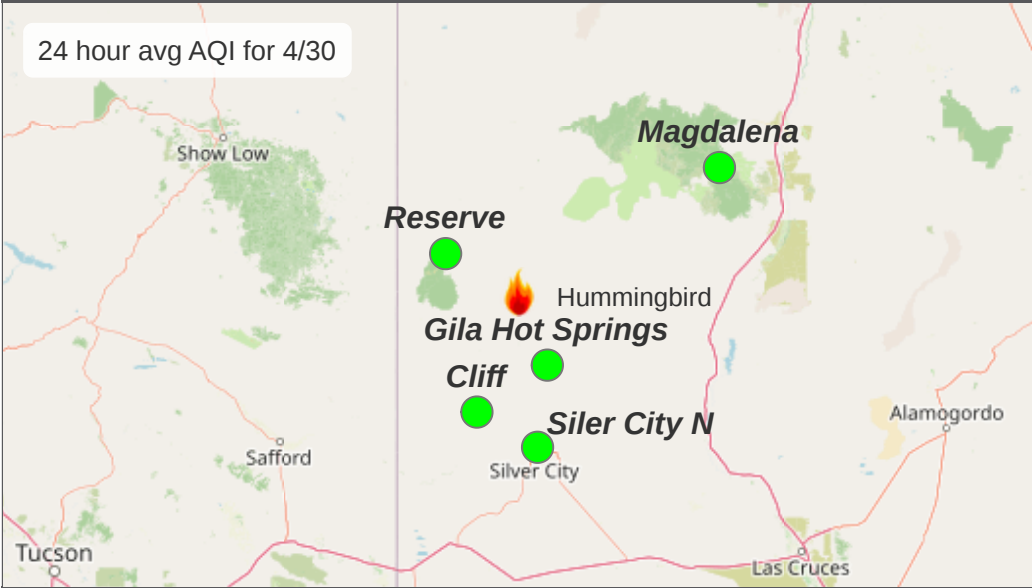

4/30 - 5/01

ARA: John Iames ARA (john.iames@gmail.com)

Issued: 07:50 MDT 4/30/26

Interagency Wildland Fire Air Quality Response Program

24 hour avg AQI for 4/30

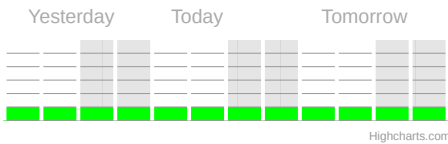

FIRE

The **Hummingbird** fire is currently estimated at 4364 acres and is 0% contained. Fire activity for the **Hummingbird** fire is expected to remain active.

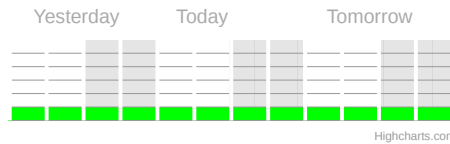

SMOKE

Early morning terrain-driven smoke will funnel SE then shift mid-morning to the NE-E from the prevailing West-South Westerlies. Breezy conditions continue but not as much as the past two days. A Pacific frontal system may bring light rain to the south of the fire today, with resulting relative humidity trending slightly higher and temperatures slightly cooler. Smoke is not expected to impact communities east of the fire, but may be seen aloft on the I-25 corridor between Truth or Consequences and Socorro. Expect GOOD AQ south of the fire.

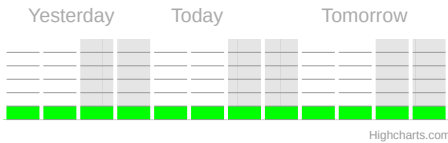

Siler City N Overcast with possible haze to the north

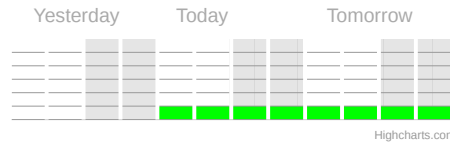

Magdalena GOOD conditions throughout the day today

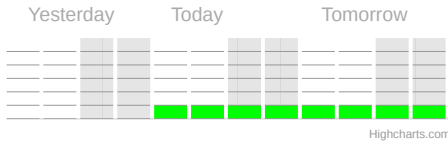

Cliff Clear today No Smoke.

Reserve GOOD AQ today for bike race. Possible smoke from Rx burn west of area

Gila Hot Springs Possible early morning terrain-driven smoke
