

# SMOKE OUTLOOK

## S-W New Mexico – Hummingbird

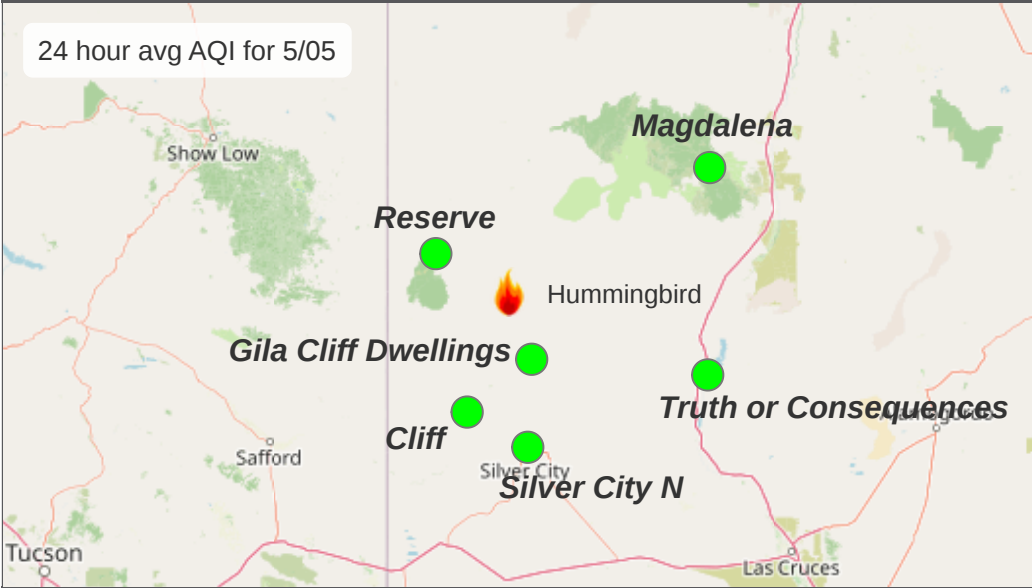

5/05 - 5/06

ARA: John Iames ARA (john.iames@gmail.com)

Issued: 06:22 MDT 5/05/26

Interagency Wildland Fire Air Quality Response Program

24 hour avg AQI for 5/05

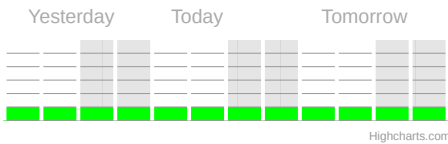

### FIRE

The **Hummingbird** fire is currently estimated at 5650 acres and is 35% contained. Fire activity for the **Hummingbird** fire is expected to remain low.

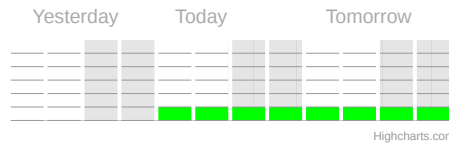

### SMOKE

The weather system out of the southwest that has brought wet conditions over the Gila over the last few days will continue today through the early afternoon. Despite expected strong winds over the Hummingbird Fire, abundant cloud cover in combination with scattered rain will continue to reduce smoke production. All communities will experience GOOD air quality for particulate matter (PM 2.5). Beginning tomorrow, drier and warmer conditions, along with lower humidity and more moderate winds, will settle over the Gila region.

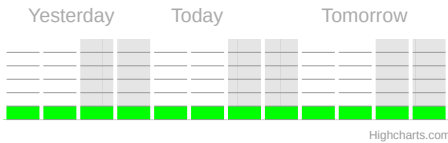

**Silver City N** No smoke expected in area

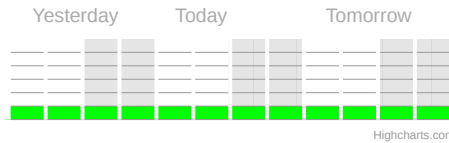

**Gila Cliff Dwellings** No smoke expected in area

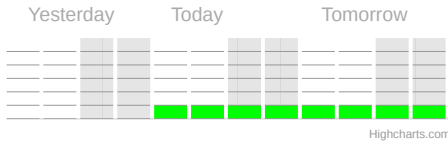

**Magdalena** No smoke expected in area

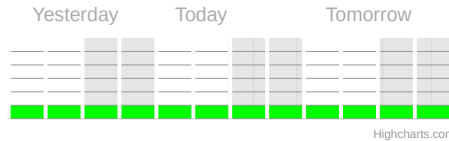

**Cliff** No smoke expected in area

**Reserve** No smoke expected in area

**Truth or Consequences** No smoke expected in the area
