

SMOKE OUTLOOK

Northern New Mexico – Frijoles Fire

8/30 - 8/31

ARA: Steve Paes steve_paes@yahoo.com

Issued: 07:26 MDT 8/30/26

Interagency Wildland Fire Air Quality Response Program

FIRE

The **Frijoles** fire is currently estimated at 15,367 acres and is 59% contained. Fire activity for the **Frijoles** fire is expected to remain low.

SMOKE

Low fire activity and smoke production is expected today. Portions of the valley west of the fire, Nambe and Espanola, may see a brief period of MODERATE air quality in the morning from smoke that drained into lower elevations during the night. Air quality will improve to GOOD as the inversion lifts and the smoke dissipates. Winds will carry today's smoke away from all forecast sites except Mora. Mora can expect smoke with west winds but still have an average of GOOD for the day with a period of MODERATE in the afternoon. Taos, Valle Vista and Santa Fe should have GOOD air quality all day.

Taos Skies may be hazy today from numerous fires in the region. Similar conditions are expected tomorrow.

Santa Fe Overall expect GOOD air quality, although skies may remain hazy.

Española Expect overall GOOD air quality today and tomorrow. Some smoke may settle into the valley during the night.

Nambe Expect overall GOOD air quality today and tomorrow. Some smoke may settle into the valley during the night.

Valle Vista Skies may remain hazy today and tomorrow, but air quality should stay GOOD.

Mora Expect GOOD air quality with periods of MODERATE in the afternoon.

AIR QUALITY INDEX (AQI)

Hazardous (H)
Very Unhealthy (VU)
Unhealthy (U)
Unhealthy for Sensitive Groups (USG)
Moderate (M)
Good (G)
