

SMOKE OUTLOOK

Northern New Mexico – Frijoles Fire

8/27 - 8/28

ARA: Rob Fisher, ARA RobertF64@vt.edu

Issued: 06:14 MDT 8/27/26

Interagency Wildland Fire Air Quality Response Program

FIRE

Fire activity for the **Frijoles** fire is expected to decrease.

SMOKE

Taos can expect GOOD air quality today unless the Mogote Ridge Fire, about 40 miles west of town, becomes more active. Española and Nambe may experience light smoke this morning, but conditions should improve by about 10 a.m., with GOOD air quality expected for the rest of the day. Mora and Santa Fe should also have overall GOOD air quality until sunset, while Valley Vista may remain hazy despite GOOD air quality; meaning that haze or light smoke may be noticeable but poses little or no health risk.

Tonight, smoke may return to Española and settle into the valleys around Nambe, Santa Fe, and Mora. Santa Fe's smoke should last only a few hours, with clear conditions expected tomorrow. Valley Vista may remain hazy tomorrow, but air quality should continue to be GOOD.

Taos Expect GOOD air quality today unless the Mogote Ridge fire, which is about 40 miles west of town becomes active.

Española Light smoke is possible early this morning until about 10 a.m., followed by GOOD air quality for the rest of the day.

Nambe Some morning smoke is possible, but skies should clear for the rest of the day.

Santa Fe Expect overall GOOD air quality until sunset, when smoke may settle in for a few hours.

Valle Vista Skies may remain hazy today and tomorrow, but air quality should remain GOOD.

Mora GOOD air quality today, but smoke from the Frijoles Fire may flow into the valley again tonight.

AIR QUALITY INDEX (AQI)

Hazardous (H)

Very Unhealthy (VU)

Unhealthy (U)

Unhealthy for Sensitive Groups (USG)

Moderate (M)

Good (G)
